## EXPERIENCE

### Holberton Coding School, Aguadilla, Puerto Rico - Student

February 2024 - Present

- Studying the Foundations of Computer Science and Software Engineering through group-based coursework and hands-on projects.
- Printf project:
  - Replicated the printf command and all its functions.
  - Built with C programming in the CLI.
  - Gained experience as a back-end developer.
- Participated and presented in daily, school-wide Stand-Ups.

### Walmart, Puerto Rico — Front-End Associate

November 2022 - Present

- Consistently surpassed sales targets as a top membership and credit card seller, contributing to overall revenue growth.
- Managed point-of-sale systems and inventory software, ensuring efficient checkout processes.
- Excelled in resolving inquiries and complaints promptly.

### Sams, Puerto Rico — Member Sales & Front-End Associate

April 2021 - November 2022

- Successfully sold membership and credit card accounts, bolstering sales revenue and fostering a collaborative team environment.
- Provided seamless checkout experiences and expert assistance to members.
- Increased member satisfaction by solving technical issues.

## EDUCATION

### Holberton Coding School, Aguadilla, Puerto Rico
